

SDMO ranks #1 among the generator set manufacturers in France and #3 in the World.

In order to provide world class support, SDMO relies on:

- a strong distribution network present in more than 150 countries
- 7 overseas subsidiaries in U.S.A., Spain, U.K., Brazil, Nigeria, Belgium and Argentina
- 7 storage platforms stocking over 1000 generators ready to ship worldwide
- 4 offices based in Alger, Dubai, Moscow and Johannesburg
- 7 French commercial agencies and 3 regional offices

Industrial teams in perfect synergy

The 5 SDMO production sites are located in ISO9001 certified facilities.

Each site is dedicated to a specific product range.

SDMO's industrial power, combined with its technological know-how, enables SDMO to constantly innovate.

► Kergardec II factory Power Products from 40 kVA to 3,500 kVA

Surface area: 15.000 square metres
47 test benches
Handling by automatic shuttle and wire-guided trucks

► Réaumur factory Portable Power Power Products < 40 kVA

Surface area: 3.900 square metres
4 petrol test benches from 1 to 10 kVA
4 diesel test benches from 5 to 30 kVA

► Villeneuve factory Rental Power Power Solutions Spare parts

Surface area: 4.650 square metres
12 test benches (diesel and gas)

► Factory at the port of Brest Power Products from 700 to 3,000 kVA

Covered area : 6,600 square metres
2 16-tonne overhead cranes
(with possibility of coupling)
Outside storage area: 4,500 square metres

► Belin factory Power Products < 40 kVA

Production area: 1,596 square metres
Storage area: 3,160 square metres

Residential, Industrial, & Critical Power capabilities

Generating sets in the heart of the desert, standby sets in hospitals, on-board or military sets, CHP stations, etc...

SDMO sets suit a multitude of applications, from the simplest to the more complex, while

at the same time meeting the requirements associated with them (sound level, dimensions, weight, environmental constraints...).

From a residential set generating a few Kw to a station generating several megawatts, both in America and across the world, in the public or private sector, **SDMO is a partner for all activities where people need energy.**

China : 13 x 2,000 kVA

Antilles : 7 x 150 kVA

Spain: 1 x 630 kVA

Telecom application in the Netherlands Antilles

Saudi Arabia : 72 x 1,000 kVA

France: 1 x 1,500 kW and 1 x 1,230 kW operating 24Hours per day

Today, power requirements become more specialized each day. The SDMO generating sets meet the specifications of all businesses. Its know-how is recognized in many sectors :

- Telecommunications
- Health
- Production power station
- Gas extraction sectors
- Bank, insurance and data centers
- Military sets
- Supermarkets
- Agribusiness
- Building
- Rental
- Transports
- Industry
- Standby in prestigious sites
- CHP...

The ability to adapt to specific applications.
